

SMSC in Computing
Nurture – Grow- Succeed Together

<p>We promote spiritual development in computing by:</p>	<p>We explore how digital technology supports spiritual development by looking at how ICT can bring rapid benefits to discussions and tolerance to an individual's beliefs. However, children are exposed to the limitations and abuse of the internet where they question and justify aims, values and principles of their own and others' belief system.</p>
<p>We promote moral development in computing by:</p>	<p>Computing supports moral development by looking at how ICT developments have had an impact on the environment. Advances in technology has meant that old ways of working have been changed to help the environment. By teaching the importance of Internet and online safety when working online using a variety of different platforms, ensuring the children have the knowledge and tools to report any instances of bullying, cyber-bullying and online safety issues. We explore the moral issues around data and sharing of information</p>
<p>We promote social development in computing by:</p>	<p>Digital technology supports social development by the completing of group work within lessons as well as practical tasks. Children are required to understand about social media and the advantages these sites have brought as well as the numerous problems such as cyber bullying. We highlight and teach ways to stay safe when using online services and social media. We teach and discuss the different ways that the Internet has impacted communication. We Prepare the children for the challenges of living and learning in a technologically enriched increasingly interconnected world. We make clear the guidelines about the ethical use of the Internet and how we keep others and ourselves safe.</p>
<p>We promote cultural development in computing by:</p>	<p>The development in technology has impacted different cultures and backgrounds in different ways. More developed countries are able to keep pace with the developments in technology whilst less developed ones can't. We provide the children the opportunity to learn about different cultures through the use of the Internet and online platforms – such as Newsround. We provide pupils opportunities to explore human achievements and creativity in relation to a worldwide communication platforms.</p>
