

Wednesday 3rd March

L.O. To write a report about a real event

It's all over!

The fire lasted for 4 days of ^{people} screaming and shouting. It ended at 6th September on Wednesday. The wind started to blow less so the fire started to spread less. Each person ^{did} a good job of trying to get the fire put out. The fire was in London the capital city of England.

The main people were King Charles the 2nd and Thomas Farnham who was blamed for the fire. Everyone on London was so relieved when the fire stopped but they were sad that they couldn't bring all their belongings. The Great Fire of London started right after midnight which is very late. 13000 houses were burnt down and 90 churches. The 4 reasons why the fire spread so quickly.

- 1: Because the houses were made of wood.
- 2: Because they were all so close together.
- 3: Because the wind was steady.

And finally.

- 4: Because it was the end of a hot dry summer.

A man named Samuel Pepys wrote a famous diary and that's how we know about The Great Fire of London. Samuel Pepys is in loads of the facts in the Great Fire of London. When the fire was all over every one was happy and probably said. "Finally".
