# WHAT ARE WE FUNDRAISING FOR?

Interactive Board for the school hall!

In the majority of primary schools across the country, an interactive board is mounted on the wall of the main hall. Boards such as these are used for a variety of purposes - to provide information in a variety of forms to the whole school during collective worship, celebration assemblies, special events and for educational purposes. The use of large screen modern technology is invaluable in this regard. It also allows films and videos to be shown. Sharing across the school community is enhanced and facilitated by the use of this essential technology.

Sadly, Great Whelnetham Church of England Primary School do not have this equipment. To share valuable information and during collective worship we currently have to use an old-fashioned projector, tipped vertically to show information on the wall above the door to the hall. Please help us to fund raise to cover the costs of providing this technology. The PFTA have already raised £1000 towards a total cost of £2,500 to get this equipment in place... we can do this, TOGETHER!
